

Superior comfort with *Natural Touch*

Comfina™ is the latest innovation in nonwovens from Welspun Advanced Textiles using a unique technology. Despite consisting of a proportion of synthetic fibers, the patent pending technology enables a 100% natural touch. Comfina™ can be developed in 3D structure, which will give a dry feel to the user.

DELIGHTING USER:

- ▶ 100% natural touch
- ▶ Superior comfort
- ▶ Soft touch
- ▶ Non-allergic
- ▶ Dry feel

DELIGHTING BRANDS AND MANUFACTURERS:

- ▶ It lends itself to customized brand names & logos in 3D embossing Structure
- ▶ Higher MD & CD strength leads to higher productivity
- ▶ Comparatively cheaper than standard Cotton Spunlace
- ▶ Can be ultrasonic bonded, unlike standard Cotton Spunlace
- ▶ Available in 25 gsm onwards leading to cost saving in raw material

PRODUCT COMPARISONS

	COTTON	comfina TM
THICKNESS	100%	120%
TENSILE STRENGTH DRY MD - N/5CM - WSP 110.1 (05)	100%	180%
TENSILE STRENGTH DRY CD - N/5CM - WSP 110.1 (05)	100%	210%

APPLICATIONS

PANTY-LINERS

BABY DIAPERS

SANITARY NAPKINS

ADULT INCONTINENCE
