

Superior Pleatability for Unparalleled Efficiency

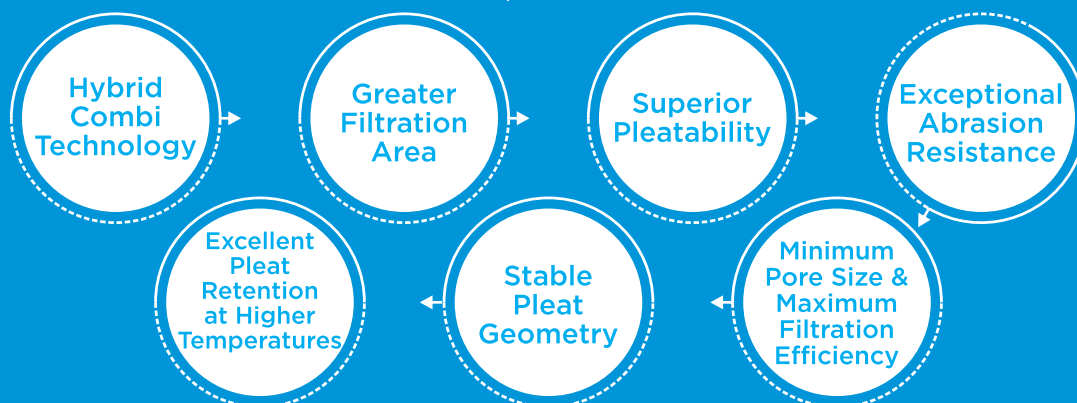

WelPleat is the latest innovation in Pleatable filter media for Air Pollution control applications, developed from a unique combination of technologies.

WelPleat offers several surface finishes for easy dust removal & the high temperature resistant resin multiplies the life of filter component and retains the pleat-ability.

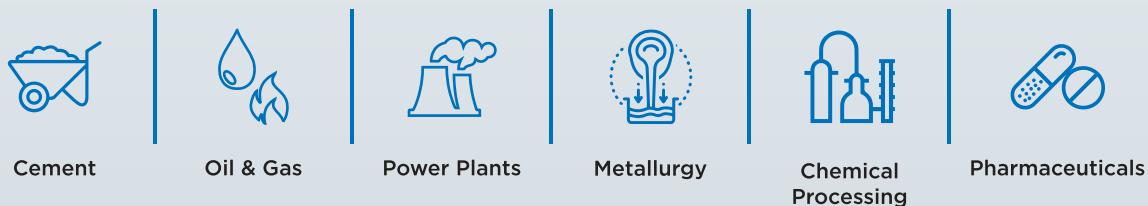

WelPleat performs exceptionally in the atmosphere with abrasive dust. WelPleat is suitable for medium & high temperature ranges and is available in Polyester, Poly Propylene, PPS & Meta Aramid.

WelPleat offers enhanced features such as:

APPLICATIONS

PRODUCT DETAILS

PRODUCT	DESCRIPTION WITH FINISH/TREATMENT (OWR/PFTE/FR/GLAZE) <small>(OWR/PFTE/FR/GLAZE)</small>	WEIGHT (G/M ²) <small>ISO 9073-1:1989 TOLERANCE - 5%</small>	THICKNESS (MM) <small>ISO 9073-1:1995 TOLERANCE - 10%</small>	AIR PERMEABILITY (LT/DM ² /MIN) <small>ASTM D 35674 TOLERANCE - 20%</small>
WPPE27P	100% Polyester	270	0.8	250
WPPE27O	100% Polyester with Oil & Water Repellant	270	0.8	250
WPPE27E	100% Polyester with ePTFE Membrane lamination	270	0.8	20-50
WPPE35P	100% Polyester	350	1	180
WPPE35O	100% Polyester with Oil & Water Repellant	350	1	180
WPPE35E	100% Polyester with ePTFE Membrane lamination	350	1	20-50
WPPE55P - AS	100% Polyester with Antistatic	550	1.5	100
WPPE55O - AS	100% Polyester with Antistatic with Oil & Water Repellant	550	1.5	100
WPPE55E - AS	100% Polyester with Antistatic with ePTFE Membrane Lamination	550	1.5	20-50
WPPS35P	100% PPS	350	1.2	150
WPPS35O	100% PPS with Oil & Water Repellant	350	1.2	150
WPPS35E	100% PPS with ePTFE Membrane Lamination	350	1.2	20-50
WPMA35P	100% Meta Aramid	350	1.3	220
WPMA35O	100% Meta Aramid with Oil & Water Repellant	350	1.3	220
WPMA35E	100% Meta Aramid with ePTFE Membrane Lamination	350	1.3	20-50
*These are typical values and can be engineered as per the requirement.
